

YOUR MISSION IS OUR MISSION

MARITIME & SPECIAL MISSIONS

Vertex Aerospace (Vertex) is committed to being your first choice for Special Missions, Contractor Air Services, Contractor Logistics Support, and all levels of Aviation Maintenance. As an ISO 9001:2015 and AS9110C/D registered company and through implementation of Lean Six Sigma processes, we have developed a “quality culture” that is committed to:

- 1) Maintaining focus on the needs and expectations of our customers
- 2) Capitalizing on the knowledge, skill, and talents of our employees
- 3) Placing emphasis on continuous improvement in everything we do.

Vertex’s Maritime & Special Missions Division offers a wide variety of world-wide, mission critical services for both commercial and government clients. This includes Organization, Intermediate, and Depot-level sustainment for fixed and rotary-wing aircraft, Fighter and Ship Training, Turnkey Life-cycle Support, and Contract Field Teams. Vertex has perfected the balance of cost, schedule, performance, and supportability and is able to offer best-value services that meet government and commercial program requirements.

We are able to deliver these rapid solutions while minimizing risk and fostering solid working relationships. We support, repair, and maintain aircraft and components to Federal Aviation Administration (FAA) and military standards. We attribute our success to accomplishing program tasks in a way that is most advantageous to our customers.
